

4 Channel Active Receiver

- Built in 4 port active receivers.
- Others identical to TTA414VR.
- Built in a highly balanced mode of video transmission for extra interference immunity.

OPTION

To protect high value camera and CCTV image processor/monitoring equipment destroyed from high voltage surges from nearby lightning strikes, the long-range twisted pair cable go through outdoors. To add surge protection SP003-SP006 device on the back of camera and front of CCTV image processor/monitoring equipments. Less cost to save high value CCTV equipments.
